In an attempt to follow the nature of the advice of the Saskatchewan government to work to flatten the curve and restrict unnecessary interactions with multiple publics, Village Council is announcing restrictions to the office staff. Most services will still be able to be processed during this time.

The office will be closed today Tuesday March 17th. Starting Wednesday March 18th, the office will have limited access for the next couple weeks. Please contact staff by phone or email to ask your questions or conduct your business. If you need to see staff in person, please phone the office to make an appointment and respect staff's requests for the process of this interaction. Our office is still here to work to serve your needs but we feel these directions will help contribute to the safety of our staff and publics.

If you have any questions or concerns with these temporary restrictions please contact myself or one of your council members.

Mayor Dan  
in behalf of Village Council and Staff
